## **WHAT IS CAHO?**

- The Consortium of Accredited Healthcare Organizations (CAHO) is a pioneering body in India, dedicated to fostering quality and patient safety within healthcare institutions.
- Formed in 2012, CAHO serves as a vital link between accredited hospitals and healthcare organizations, helping them maintain the highest standards of care through collaboration, education, and quality improvement initiatives

## CAHO INTERNATIONAL

- CAHO International was officially launched in April 2024, marking a significant milestone in CAHO's journey.
- This new extension of CAHO will oversee and manage the global portfolio in a more consolidated and focused manner, expanding CAHO'S international footprint.

## WHY IS THIS RELEVANT

- Accreditation, Quality and Patient Safety standards are becoming an essential part of operations for all hospitals.
- There is a significant lack in hospital training programs, facilities and policies in Sri Lanka.
- Aim is to give all hospitals in Sri Lanka access to important educational facilities which can aid in strengthening our own healthcare system.

## WHAT ARE CAHO EX-CO SESSIONS

- Free virtual discussions that are targeted towards Hospital Decision Makers with the hope of fostering an environment of quality enhancement, collaboration, knowledge-sharing, and innovation.
- Sessions will be conducted monthly by international veterans in the Healthcare Industry

### SCAN TO REGISTER!
