

The Asterian Way

To create a standardized, enhanced experience, that unifies all new Asterians to the organization's vision, mission, and promise.

Need of moving into E-learning

The Challenges:-

- The acculturation of staff members was not evident
- We could not orient them to the desired ways of working – The Asterian Way.
- Disengaged workforce and mismatch in service delivery.

Orientation ensures all staff members understand organizational goals, vision, mission, value system & rights, and responsibilities.

The Asterian Way – Your Path to Success

ATAWAD – Any Time, Any Where & Any Device

- Self-paced learning
- Time Management
