Janitri

Innovating for Saving Lives at Birth

Maternal Health - Overview

- Fetal Heart Rate, Uterine Contraction Monitoring is critical for the early detection of fetal distress.
- **Partograph** is a proven tool to monitor labor progress, however, paper-based partograph **is complicated and requires time.**
- 70% of deliveries occur in low- resource settings with **poor patient-staff ratio, and low access to expertise and tools.**

223 deaths

per 100,000 live births
global MMR

19 deaths

per 1,000 live births
global NMR/IMR

70%

of deliveries globally were
attended by nurses and
midwives

Existing Technology

Not Portable/ Not
Wireless

Not Patient/User
Friendly

Not Digital

Paper-based recordings

No Auto Interpretation/
Need the expertise to
read graphs

No Remote Monitoring

Janitri Monitoring Technology

Keyar DT

Wireless & Portable Fetal Monitor

Mother's Mobility

Wireless probes allow monitoring throughout the birthing process

Twin Monitoring

Connect an additional Doppler probe to monitor two fetuses at the same time.

Remote Monitoring

Access live graphs and digital records on your mobile with our doctor's app

Clear Heartbeat Sound

High-quality probes with multiple sensors gives clear fetal heartbeat sound.

Auto-Interpreted Reports

Auto-Interpretation of baseline acceleration, STV, and other cCTG parameters.

Monitors All Presentation

Flexible placement of probes allows getting readings of fetal presentation.

Software Application for Complete Digitalisation of Labor Room

Nurse Application to record data and access report

Doctor's interface to access data and reports remotely

Dashboard for all stakeholders for reports & patient data

- Digital Case sheets
- Auto interpretation of FHR & UC Graph
- Auto-generated partograph Alerts and
- Alarms
- All Patient data access Cloud storage

Our Impact

Here's the glimpse of the positive difference we are making in maternal healthcare through our dedicated efforts and initiatives.

**Monitored by
60,000+ mothers**

**Successful
deployment in
10+ countries**

9000+ referrals

**Catered 400+
hospitals**

**Trained over
1200+
Healthcare
providers**

**5500+
Critical alert
generated**

Public Health Implementations

States	Deployments	Partners
Karnataka	74	State Government
Maharashtra	10	State Government (PIP Budget approved)
Rajasthan	23	State Government, WISH Foundation
Meghalaya	8	Karuna Trust, SELCO Foundation
Arunachal Pradesh	8	Karuna Trust, SELCO Foundation, NASSCOM
Bihar	1	State Government, UNICEF
Manipur	47	HTPF, CCamp, Selco Foundation, State Government
Sierra Leone	10	PIH, MSD for Mothers, Sierra Leone Govt

Content Manager

Priyanka Singh
Public Health Manager

Team of 40+ people in house are the driving force behind our success.

Medical Advisory board

Dr. Latha Venkataram

MBBS, FRCOG(UK), MRCP(IRE)

Dr. Alpesh Gandhi

MBBS, MD (Obst. Gynae)

Dr. Emanuel Gracias

MBBS, MD (Obst. Gynae)

Dr. Pratibha Singh

MBBS, MD (OBG)

Dr. Chandrachur Konar

MBBS, MS (OBG), DNB, MNAMS, Assoc. MRCOG

Dr. Srimathy Raman

MBBS, MD, FRCOG, CCT (UK)

Dr. Sheela Mane

MBBS, MD, FICOG, FICMCH (OBGYN)

Dr. Sareena Gilvaz

MBBS, MD, DGO (Obst. Gynae)

Dr. Alka Sehgal

MBBS, MD, DNB, MNAMS (Obst. Gynae)

Dr. Sucheta Kinjawadekar

MBBS, MD (Obst. Gynae)

Dr. Mary Harun

Bachelor of Science in Nursing graduate

Dr. Hema Divakar

MBBS, MD - Obstetrics & Gynaecology, DGO

Dr. Uma Ram

DGO, DNB, FRCOG(UK)

Dr. Ajit Patil

MBBS, MD (Obst. Gynae), FICOG, FICMU

Dr. Smita Bisen

MD | LTMMC & GH Sion Mumbai

Dr Mamta Tyagi

MBBS, MS - OBGYN, Infertility Specialist & Laproscopic Surgeon

Dr. Sujoy Mitra

MBBS, MD (Obst. Gynae)
