DECK

National Award Winning Start-up
& IIT DELHI Incubated Venture

Our Team

Prateek Sharma, **Founder & CEO**

- B.Tech. 2011-15, IIT Delhi | TEDx Speaker
- Youngest OCND (Outstanding Contribution for National Development) Awardee, IIT DELHI 2019, TEDx Speaker

Amar Gupta, **COO**

- 14+ years of experience in Test-Prep and Education Technology domain
- Executive coach for more than 15 tech-based companies/start-ups
- Management graduate | Associated with 'CIIE' at IIM Ahmedabad

Hitesh Katia, **Creative Head**

- Core Team Member
- 14+ years of experience
- Past: Vcommission Media

Shubham Rajput, **Research Head**

- M.Tech. (Textile Sciences & Engineering), IIT Delhi
- Expertise in Nanofiber Research & Textile Materials
- Past: Project Scientist at SMITA Labs, IIT Delhi

Technical Advisors

Professor Ashwini Agrawal

- Professor, Department of Textile Technology, IIT Delhi
- Intelligent textile materials, Nano-materials, plasma processing, and fibre manufacturing

Professor Manjeet Jassal

- Professor, Department of Textile Technology, IIT Delhi
- Fiber Science & Technology, Functional (Nano) coatings/ finishes, Electro-spun nanofibers

Business Advisors

Rahul Jain,
Co-founder, Epigamia

Pranay Gupta,
Co-founder, 91SpringBoard

Dr. Vishal Gandhi,
Founder, BIORx

Research Partner

Featured On

Our Technology

Nanofibers as a Filter Media

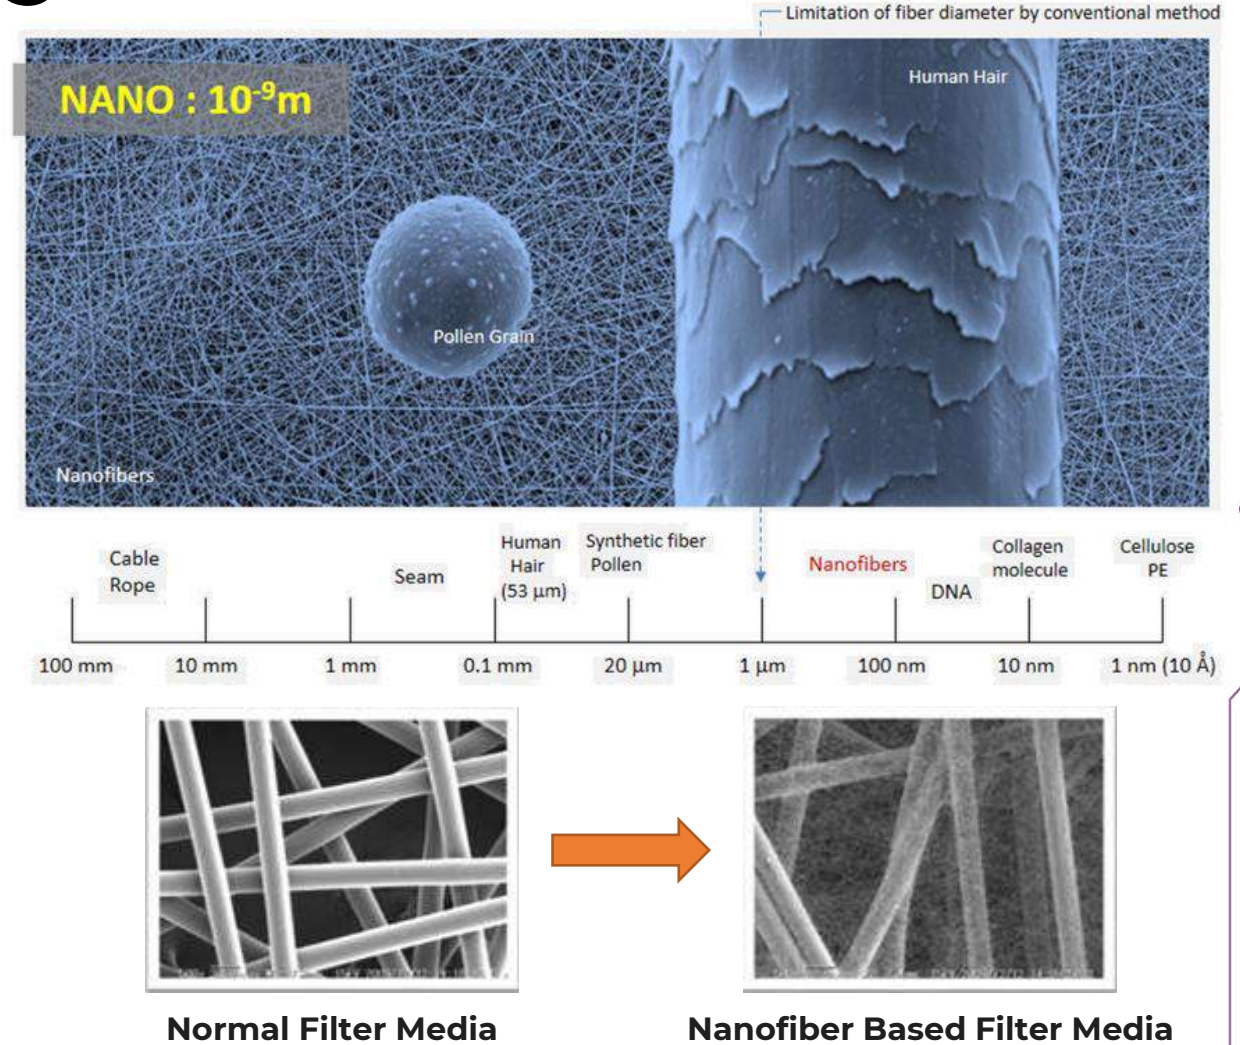

Benefits of using Nanofibers based filter Media

- Higher Efficiency,
- Lower Cost,
- Lower Pressure Drop

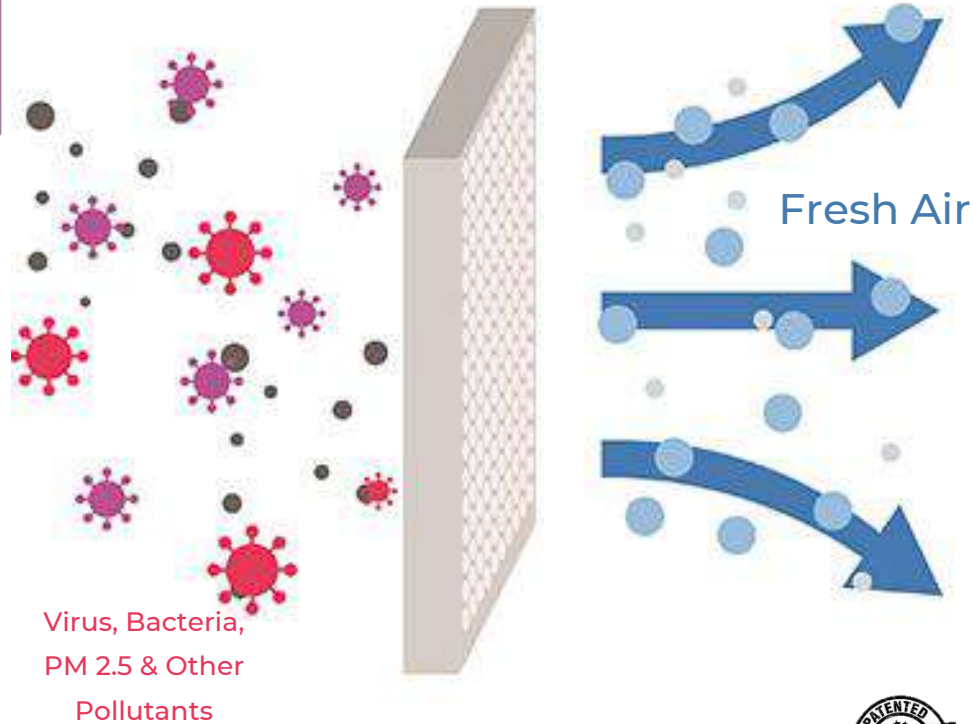

Why Us?

- We are the **ONLY VENTURE in the World** with the technology to **Develop Bio-Degradable Nanofibers**
- We have a **Patent on the Bio-Compatible Nanofiber Technology**

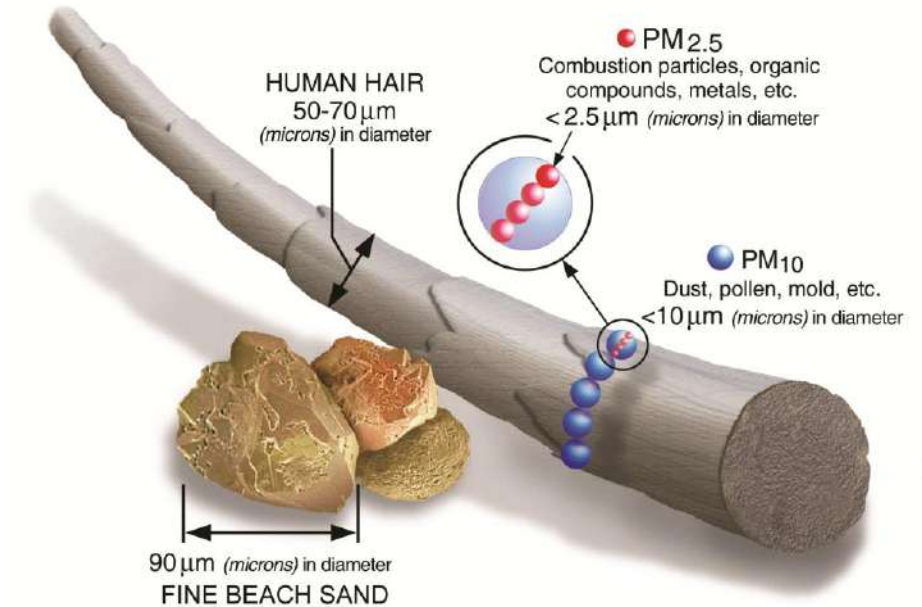

How it Works

Nanofibers as a Filter Media

The pores of
Nanofibers
are **smaller**
than **PM 2.5**

- A Layer of **Nanofiber coating** on a base fabric
- Resulting Filter has a **pore size smaller than PM 2.5**
- Up to **99% Efficiency** against **Virus, Bacteria and Pollution**

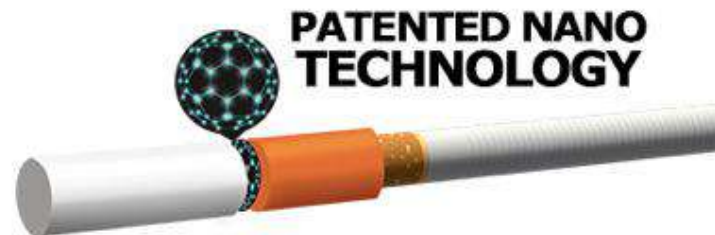

Our Solution

CigiBud

Upto
80.00% Reduction
of Tar/Nicotine Consumed

CIGIBUD

- 3 months therapy to quit smoking
- Naturally reduces the urge of smoking
- Upto 80% less injurious to lungs
- Smoothness in the throat
- Compatible with all cigarette types

The Problem

HEALTH EFFECTS OF SMOKING

”

Tobacco use is one of the **major causes of death** and disease in India and accounts for **nearly 1.35 million deaths every year.**

27% of all cancers in India are attributable to tobacco use

Every Cigarette Smoked reduces the **average Life Expectancy** by

11
Minutes

63
Percent

people wish to quit smoking due to **adverse health effects of Tobacco** on Lungs But are unable

Available Solutions

Existing Solutions are either unaffordable or
are more harmful than smoking itself

Matter of Concern:

- Nicotine patches and gums are good for tackling withdrawal symptoms that follow immediately after quitting smoking but many researches show that **direct intake of nicotine is more harmful**
- The exiting **Anti-tar filters** have no 'filter' as such and are just able to trap thick particles without caring about carcinogens
- Some studies have shown **E-Cigarettes to be more dangerous than normal cigarettes**

Nicotine Patches

Nicotine Chewing Gums

Anti-Tar Filters

E-Cigarettes & Vapes

How Its Works

Inspired by NRT

Variants of Cigibud

Lite

TAR Reduction – Up to 60%
Nicotine Reduction – Up to 30%

Ultra

TAR Reduction – Up to 70%
Nicotine Reduction – Up to 50%

Pro

TAR Reduction – Up to 80%
Nicotine Reduction – Up to 80%

How Its Works

Inspired by NRT

The smoking cessation happens over a period of 3 months:

Month 1

Cigibud - Light will reduce the intake of nicotine by upto 30%. It makes a cigarette smooth and less injurious by filtering tar by upto 60%. A dark brown colored tar can be seen inside Cigibud - Light after smoking.

Month 2

Cigibud - Ultra will reduce the intake of nicotine by upto 50%. The tobacco smoke will not hit your throat which is very common in normal smoking. It will make you used to a smoother tobacco smoke.

Month 3

Cigibud - Pro will reduce the intake of nicotine and tar by upto 80%. Now, you won't like the bitter taste of even a single puff of a normal cigarette. Welcome to the Pro-Club.

सिगीबड : निकोटिन की मात्रा घटाएगा और आदत छोड़ने में मददगार होगा

एजेंसी। नई दिल्ली

आईआईटी दिल्ली के पूर्व छात्र प्रतीक शर्मा ने धूम्रपान करने वालों के लिए एक ऐसा सिगरेट फिल्टर विकसित किया है जो ना सिर्फ उनके शरीर में जाने वाली निकोटिन की मात्रा को कम करेगा बल्कि उन्हें इस आदत को छोड़ने में भी मदद करेगा। आईआईटी के इस छात्र को यह विचार 2018 में सिनेमाघर में एक फिल्म के दौरान धूम्रपान नहीं करने की सलाह देने वाला परामर्श

स्वाद में बदलाव किए बगैर धूम्रपान से जाने वाली 80 फीसदी निकोटिन को फिल्टर करेगा सिगीबड

आईआईटी दिल्ली के पूर्व छात्र ने बनाया फिल्टर

भीतर जाने वाली 80 फीसदी निकोटिन को फिल्टर कर सकता है। गौरतलब है और उन्हें बाजार में उतारने पर काम शुरू किया। यहां तक कि शर्मा की लीक से

I just seen your product on shark tank.
I use to smoking from last 5 years so I'll chew so many products but it didn't succeed.
But now I switched to cigibud as they claim upto 80% nicotine reduction

I tried this product and I like this product
Hoping this product to decrease my urge of smoking

Thanku cigibud team

Dear Prateek,

Thank you for the call (It was a pleasant surprise).

Cigibud is an amazing product for anyone who is genuinely looking to get off smoking. I have tried multiple products over the years and nothing comes close to this. I was so surprised by the effectiveness of the product and the ease of that I immediately referred it to all my near and dear ones. You guys are doing an amazing job and making a significant difference to so many smokers and their families. All the best to the entire Nanoclean global team.

Love this product

Reviewed in India 🇮🇳 on 16 March 2023

Size: 1 Count (Pack of 30) | Colour: Orange

My husband was very much additive to smoking and he consume more than 10 cigs in a day. Every 2 hours he need to smoke as he am smoking since 2004. Tried a lot of things to quite but was never able to succeed.

So I tried this product and I really love this product

This product reduce my urge of smoking

NASOFILTERS™
HAPPY BREATHING

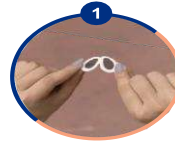

A Breakthrough in innovation

Naso95

Protection From
Bacteria, Viruses, Dust,
Pollution & Pollen

PATENTED TECHNOLOGY

1
Carefully peel off the Nasofilter from the release paper & hold it with both hands

2
Paste it on your nasal orifice and press the paper all around the circumference

3
Remove the white paper from the centre, gently towards the sides

Developed Using Technical
Knowledge from IIT - Delhi

- A Respiratory Nasal Filter that sticks to your nose & prevents the entry of **harmful air pollutants like PM 2.5**
- Made using **Nanotechnology** to ensure **minimal air resistance and No breathing discomfort**
- Highly porous substrate with Surface filtration Technology and **Auto-Cleans while exhaling**
- Sticks to the bottom of the nose and is **Nearly invisible**
- Can be used for upto 8-10 hrs

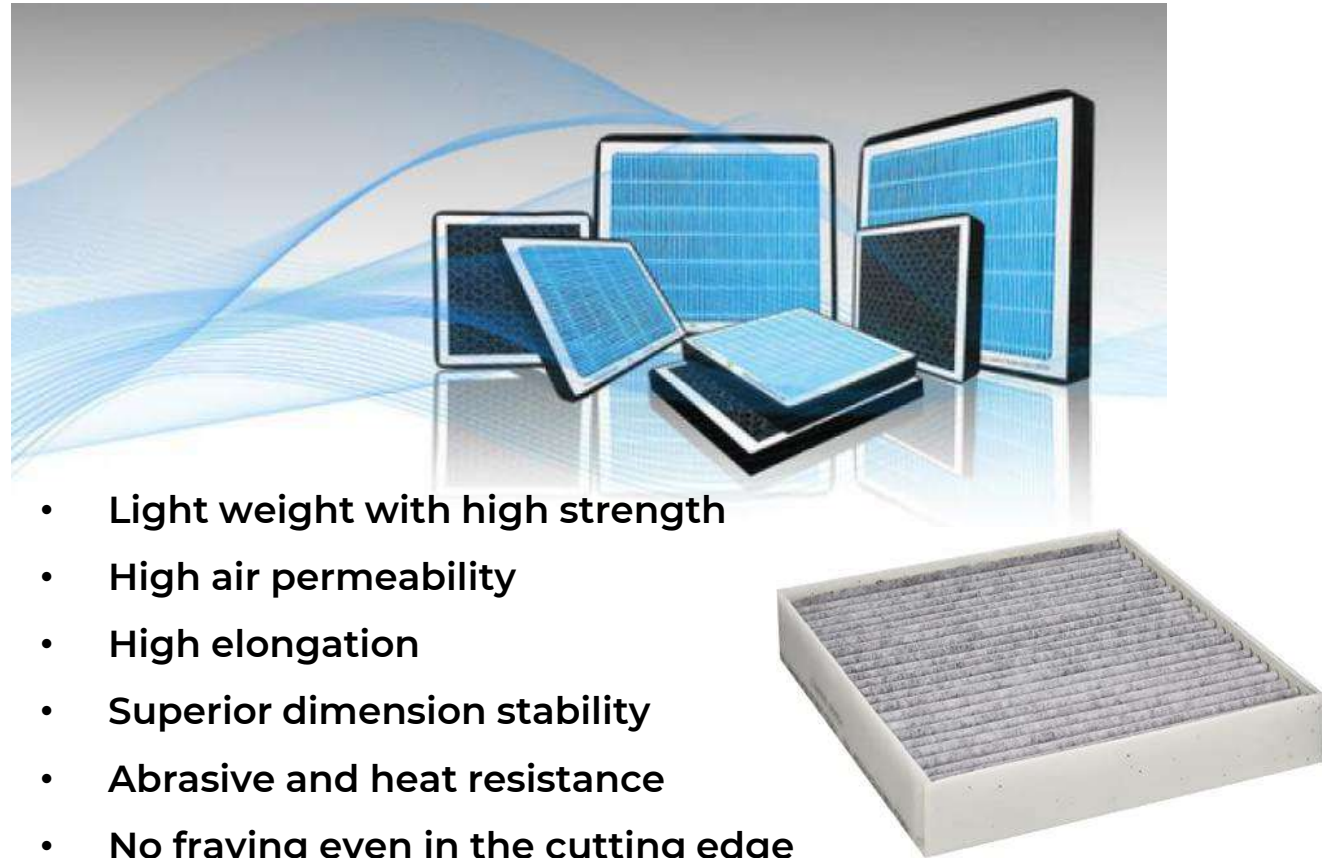

Our Nanofiber Technology

- **Uniform nanofibers**
- **Bio-safe material**
- **Good adhesion**
- **Highly efficient**
- **Low pressure drop**

CABIN AIR FILTERS

**Nanofiber Coated Filters
for Vehicles**

- Light weight with high strength
- High air permeability
- High elongation
- Superior dimension stability
- Abrasive and heat resistance
- No fraying even in the cutting edge

Applications:

Hard Special use for automobile cabin air filter | Automobile fuel purifier | Home air purifier | Industrial air filtration | Medical application.
