About InnovatioCuris

InnovatioCuris is a healthcare innovation organization that works with large-scale global healthcare providers and key industry stakeholders to advance its mission of reducing healthcare delivery costs while improving the quality of care.

It provides organizations, startups, and entrepreneurs with a competitive edge by enabling faster market penetration and fostering mutually beneficial collaborations that create new opportunities for growth.

InnovatioCuris has also developed a comprehensive knowledge and innovation platform encompassing webinars, conferences, hackathons, market access programs, training initiatives, healthcare consulting, and an e-magazine, connecting innovators worldwide and facilitating the exchange of healthcare knowledge, ideas, and solutions.

About Jamia Millia Islamia

Founded in 1920, Jamia Millia Islamia (JMI) is a distinguished Central University known for academic excellence, research and innovation. With a multidisciplinary ecosystem spanning healthcare, engineering, sciences, management and more, JMI is accredited with NAAC A++.

InnoHEALTH 2026 is proud to collaborate with JMI to bring academia and healthcare leaders together, fostering dialogue, innovation and knowledge exchange for the future of healthcare.

About

InnoHEALTH 2026

India's healthcare is no longer a set of separate sectors, it is one ecosystem, and the patient's journey is only as strong as the bridges connecting its parts.

InnoHEALTH 2026 puts the spotlight on ownership, on identifying who builds these bridges across the system. A diagnosis is meaningless if it never reaches the treating physician. Data is powerless if it doesn't travel with the patient. Prevention cannot scale without the funding bridges to carry it. And none of it holds together unless the hospital, the ecosystem's centre of gravity, can operate profitably, safely, and transparently.

Connected Care is a call to build those bridges across data, diagnosis, funding, and trust, so the system finally moves as one.

Agenda

Day - 1

20 November 2026

	PRE- CONFERENCE WORKSHOP
Session - 1	INAUGURAL SESSION - THE FRAGMENTED ECOSYSTEM India's healthcare sectors are advancing rapidly—but the patient journey is still fragmented. This opening plenary asks what it will take to connect the ecosystem around one shared outcome: better care.
Session - 2	THE HOSPITAL AS THE ECOSYSTEM HUB Every healthcare bridge ultimately meets at the hospital. This session examines how hospitals can improve operations, outcomes and partnerships while becoming true integrators of connected care.
Session - 3	TRUSTED DIGITAL HEALTH Connected care needs connected data—but it also needs trust. Explore how interoperability, responsible AI, data governance and cybersecurity can enable a safer, smarter digital health ecosystem.

Agenda

Day - 2

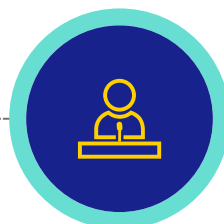

21 November 2026

Session - 4	THE DIAGNOSTIC-CARE BRIDGE A diagnosis creates value only when it leads to timely treatment. This session explores how diagnostics, clinicians, hospitals and digital platforms can close the critical gap between detection and care.
Session - 5	THE AFFORDABILITY BRIDGE Connected care cannot succeed if patients cannot afford to access it. Leaders from insurance, hospitals and policy explore new ways to finance prevention, treatment and better health outcomes.
Session - 6	THE PHARMA BRIDGE The journey should not end when a medicine is prescribed. This session explores how pharma can move beyond products to improve access, adherence, evidence and measurable patient outcomes.
Session - 7	THE URBAN-COMMUNITY BRIDGE Quality healthcare must extend beyond major hospitals and metropolitan centres. Discover how stronger primary care, referral networks and public-private partnerships can connect communities to the care they need.
Session - 8	THE WORKFORCE BRIDGE Healthcare systems are only as strong as the people delivering care. This session puts nurses and allied professionals at the centre of the conversation on retention, technology, skills and patient safety.
Session - 9	YOUNG INNOVATORS AWARD Celebrating the next generation of healthcare changemakers, the Young Innovators Award brings promising ideas and solutions to the InnoHEALTH stage. Selected innovators will pitch to an expert jury and compete for recognition, mentorship, pilot opportunities and industry connections.

The InnoHEALTH Experience

Keynotes & Expert Talks

Insights from healthcare's leading thinkers

Expert Panel Discussions

Diverse perspectives on healthcare's biggest opportunities

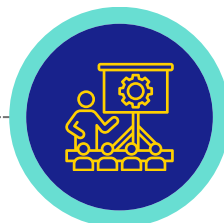

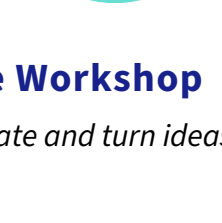

Podcast

Candid conversations shaping the future of healthcare

Innovation Showcase

Showcase healthcare innovations globally

Interactive Workshop

Learn, collaborate and turn ideas into action

Innovation Awards

Celebrating ideas with the potential to transform healthcare

Registration Passes

Delegate Pass

- ✓ Full conference access across all sessions
- ✓ Tea & lunch included
- ✓ 2 free meetings of IC InnovatorCLUB
- ✓ Networking opportunity with speakers & delegates via B2B portal

**7,000
INR**

Student Pass

Valid student ID required at registration

- ✓ Full conference access across all sessions
- ✓ Tea & lunch included
- ✓ Mentorship support for innovation projects
- ✓ Networking opportunities with industry leaders and healthcare experts

**3,000
INR**

Nurse Pass

- ✓ Full conference access across all sessions
- ✓ Tea & lunch included
- ✓ One-year membership to IC Nursing Innovator FORUM
- ✓ Networking opportunity in nursing-specific circles

**3,500
INR**

Workshop Pass

30 seats

- ✓ Full access to pre conference workshop only
- ✓ Hands-on learning and practical skill development
- ✓ Interactive guidance and Q&A with workshop mentors
- ✓ Networking opportunity to connect with experts

**1,000
INR**
