SPEAKER

About Webinar:

The NABH Digital Health Standards (DHS) evaluate how effectively hospitals leverage digital technologies to enhance clinical outcomes, improve patient experience, strengthen data security, and drive operational efficiency.

Covering key areas such as HIS, EMR, digital infrastructure, cybersecurity, data privacy, and alignment with national initiatives like ABDM, NHCX, and Digital India, DHS enables hospitals to demonstrate digital maturity, build stakeholder trust, and future-proof healthcare delivery.

WHO SHOULD ATTEND

- Hospital Leadership (CEOs, Directors)
- CTOs / IT Heads
- Healthcare IT & Digital Transformation Teams
- Doctors and Nursing Professionals
- Hospital Administrators & Quality Managers
- HMIS / EMR Solution Providers
