

CAHO WORLD PATIENT SAFETY DAY 2026

SAFE CARE FOR LIFE!

SAFER CARE FOR NON-COMMUNICABLE DISEASES

MAKING NONCOMMUNICABLE DISEASE CARE SAFER AT EVERY STEP

13 SEPTEMBER 2026, 4 PM TO 6 PM | LIVE WEBINAR

“For people living with NCDs, patient safety is not a single event—it is a lifelong journey.”

The WHO's WPSD 2026 is dedicated to safe care for noncommunicable diseases. People living with NCDs — cardiovascular diseases, cancers, diabetes, chronic respiratory conditions — face heightened vulnerability to harm due to their long-term care needs and frequent health system interactions.

The NCD care involves repeated consultations, investigations, medications, procedures, referrals, transitions and self-management. Therefore, patient safety must be built into every touchpoint of the patient's journey. WHO's 2026 campaign specifically calls for safer diagnosis, medication safety, meaningful patient engagement, continuity of care and proactive identification of risks.

CAHO is proud to rally healthcare professionals across India to champion patient safety in NCD care.

TARGET AUDIENCE:

Doctors, nurses, allied health professionals, hospital administrators, quality professionals, patients/caregivers and healthcare leaders
