

Healthcare Forward: Innovate, Integrate, Impact
11 October 2025, Hotel Radisson Blu (Near Airport), Chennai

India's healthcare sector is poised for transformational growth, projected to reach \$372 billion, as part of the global \$10 trillion healthcare economy. With a robust CAGR of over 22%, this sector holds tremendous promise, particularly in progressive states like Tamil Nadu, which aims to become a \$1 Trillion economy by 2030.

Tamil Nadu is actively transitioning from conventional models to advanced, technology-enabled healthcare systems. This shift is vital for capitalizing on emerging opportunities and also for addressing core challenges around regulatory frameworks, data privacy, financial viability and workforce development. In this evolving landscape, sustainable healthcare innovation has emerged as a critical enabler of long-term impact and resilience.

To catalyze these conversations and drive actionable insights, CII is pleased to announce the **5th edition of MedClave, scheduled for 11 October 2025 at Hotel Radisson Blu, Chennai**, under the theme: Healthcare Forward: Innovate, Integrate, Impact. This flagship initiative will feature high-impact sessions and panel discussions on Innovation in Marketing & Communication; Patient Experience & Digital Engagement; Healthcare Finance & Funding Models; Sustainability in Healthcare Delivery; Startups and Disruptive Innovation.

Thiru Ma Subramanian, Hon'ble Minister for Health and Family Welfare has kindly consented to join us and address the gathering.

This edition will bring together eminent doctors, med-tech companies, startups, medical institutions, founders, and sectoral experts to deliberate on critical challenges and formulate actionable strategies for the holistic development of the healthcare ecosystem.

We are writing to invite you and a few colleagues from your esteemed organisation to attend the 5th Edition of CII Tamil Nadu Medclave 2025. The registration details are appended below -----
